Type Package

Title Labels for Danish SKS Codes

Version 0.1.0

Description The public available Danish SKS (Sundhedsvæsenets Klassifikationssystem) and SNOMED (Systematized Nomenclature of Medicine) codes with labels. The labels are useful to sort and make sense of microdata in closed computing environments. Current as of april 2026 (SNOMED) and june 2026 (SKS).
SNOMED <<https://www.patobank.dk/snomed/>> and
SKS <<https://filer.sundhedsdata.dk/sks/data/skscomplete/>>.

SKS_labels

Data from the SKS dataset

Description

Data from the SKS dataset

Usage

```
data(SKS_labels)
```

Format

A data frame with ? rows and ? variables:

Prefix Prefix kode kategori

Kode SKS kode

Label Label på dansk

Source

[Website](#)

Examples

```
data(SKS_labels)
```

SNOMED_labels

Data from the SKS dataset

Description

Data from the SKS dataset

Usage

```
data(SNOMED_labels)
```

Format

A data frame with ? rows and ? variables:

Kode SNOMED kode

Label Label på dansk

SNOMED_labels

3

Source
