#	SUGGESTIONS FOR IMPROVEMENTS TO THESE EVENTS (PLEASE MAKE SURE TO NOTE WHICH EVENT YOUR COMMENT PERTAINS TO):	DATE
1	Keep them going	2/2/2018 11:48 AM
2	They are probably great but I was already overbooked.	2/1/2018 5:59 PM
3	The receptionists have no clue of what's going on in the conference . Newbies team is totally irrepressible and unresponsive .	1/29/2018 4:37 PM
4	I remain unconvinced that 'high-speed coding' (i.e., the 'hackathon') is conducive to good Internet engineering, and should really be associated with the IETF	1/28/2018 9:57 AM
5	I found this event quite fine.	1/9/2018 12:08 PM
6	the hackathon was a bit short of real estate	1/8/2018 8:58 PM
7	Really enjoyed the hackathon and wish more Singapore-based friends knew about it and attended. Suggestion: Encourage more local community engagement with these events. There were very few participants, visibly at least, from Singapore/region. (Typical SG tech meetups draw hundreds, especially when a few foreign experts are visiting. The IETF hackathon had more experts than ever.)	1/8/2018 4:58 PM
8	I understand that the hosting company wants exposure but those Thursday lunch sessions are... so... boring...	1/8/2018 10:36 AM
9	At the hackathon, offer tables for no specific protocol or specification for people undecided.	1/8/2018 9:19 AM
10	The thursday speakers are on ballance useful, but on this occasion I don't think Dave Ward said much of interest	1/8/2018 9:10 AM

## IETF 100 Meeting Survey

---

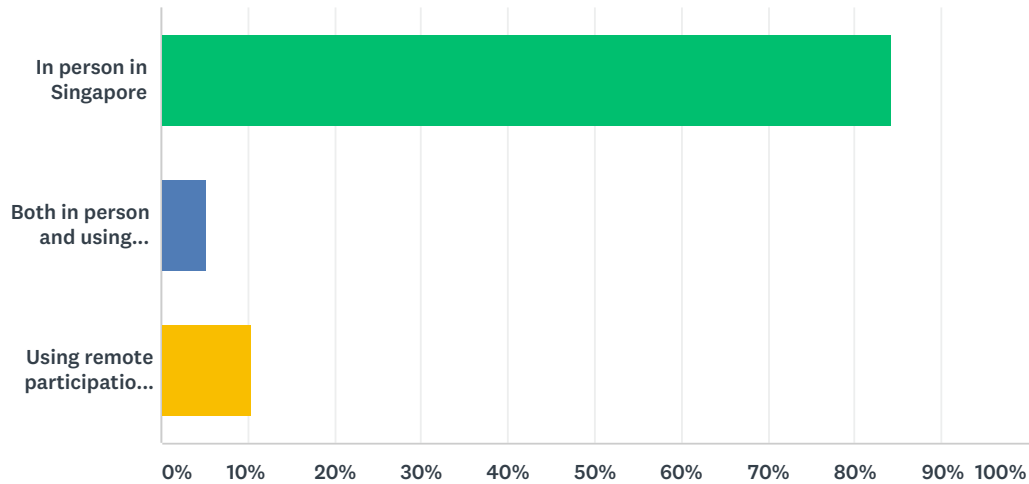

11 I think the Hackathon is very useful, even though I just "bystander" there. I attended a couple tutorials just to check them out, and thought they were well-done; I've given one previously. I think all three things are useful and should be continued. There was a thread on the meet-and-greet on the WGChairs mailing list, that as I recall ended up with some good suggestions for improving that.

9	Please continue using Meetecho, both the tool and the team are great.	1/9/2018 12:23 AM
10	It seemed to work pretty well, although it's been almost two months since IETF100. I don't remember any problems.	1/8/2018 2:22 PM
11	Meetecho was broken for the critical WG I attended; had to use Jabber and audio stream.	1/8/2018 1:46 PM
12	People in my working group made remote presentation via Meetecho. It was very good.	1/8/2018 12:31 PM
13	There are still people who refuse to buy a headset. I don't understand it.	1/8/2018 12:31 PM

## IETF 100 Meeting Survey

15	There were initial audio issues - many people were re-connecting and the agenda had to be re-ordered. The video dropped out for about 5 minutes in the middle.	1/8/2018 11:26 AM
16	Video quality was good, and participating in WG meetings was easy.	1/8/2018 10:46 AM
17	It gets better and better - remote speakers come across really well.	1/8/2018 10:36 AM
18	Presented at ICCRG via Meetecho. Went well. Though I initially did not see the email with the URL for presenters to log in, and was pointed to it only after logging in as a regular (non-resending) participant.	1/8/2018 9:42 AM
19	There seemed to be a lower attendance at the SIN IETF. I do not know the reason, but IMO it had a clearly negative affect on the productivity and usefulness for me as a participant.	1/8/2018 9:22 AM
20	I continue to be impressed with Meetecho.	1/8/2018 9:06 AM
21	Continues to improve. Remote presentation, in particular, is now much more reliable	1/8/2018 9:06 AM

11	Fairmont was extremely expensive. Unlike most engineers who show up, I rely on a good hotel, as my day job happens during and after the IETF meeting times, and I'm often stuck in the hotel. This trip was the most expensive IETF I've had in a long time.	1/9/2018 9:47 AM

17	??♥????	1/8/2018 5:06 PM
18	If we were going to someplace that's not the east coast of Asia, it was accessible from the US, and I found inexpensive housing and mostly inexpensive food. For English speakers, it was easy to navigate.	1/8/2018 3:43 PM
19	Not a free speech nation	1/8/2018 1:02 PM
20	Singapore took an extra hop for me in travel, but nothing terrible. Getting to an from the airport was straightforward. Though I didn't have any trouble, all of their warnings regarding customs and immigration (drugs you can bring in, other laws) seemed a bit foreboding. The tropical weather was tropical.	1/8/2018 12:59 PM
21	I would certainly return. Well connected, great airport close to the city, lots of English, great food, and inexpensive outside of the hotel.	1/8/2018 12:40 PM
22	Singapore is too expensive	1/8/2018 12:35 PM
23	It was all very nice. It just seems like a long way to fly to Asia when the culture is so westernized...	1/8/2018 11:41 AM
24	Clean, safe and easy to get around in. My hotel was located a few kilometers from the venue which meant many late night walks through the city.	1/8/2018 11:35 AM
25	Singapore is a wonderful city, and very convenient for English speakers. However, getting there is a long, expensive, and hard hassle. This is common to all East Asian and South East Asian cities.	1/8/2018 11:19 AM
26	Customs and immigration were simple, fast, and easy. Enough restaurants were nearby for lunch and dinner. Multiple hotel options within easy walking distance. MTR (subway) and taxis both worked well to get around. Friendly people on the street. Safe.	1/8/2018 10:52 AM
27	Modern, safe, good airline connections.	1/8/2018 10:39 AM
28	Easy access, easy food/drink, not too expensive (when compared to London !!!!)	1/8/2018 10:31 AM
29	The heavy (necessary) use of insect repellent was pretty challenging. I otherwise love the setting, but by the end of the week my reaction to the insect repellent in the air conditioning had become a serious problem.	1/8/2018 10:26 AM
30	Safe, easy to travel to, warm weather at the time of meeting.	1/8/2018 10:10 AM

37	Nice harnur city	1/8/2018 9:38 AM
38	Very comfortable/safe for we rich westerners but clearly an authoritarian surveillance state once you left the tourist areas.	1/8/2018 9:32 AM
39	Too bloody hot & humid. Expensive flight. Long flight.	1/8/2018 9:24 AM
40	The venue turned out to be good in my specific case. However, there are rules that preclude participants from being able to attend the meeting in Singapore. More inclusive locations should be prioritized.	1/8/2018 9:21 AM
41	Beautiful hotel in a great location in the city.	1/8/2018 9:21 AM

45	.. but expensive	1/8/2018 9:11 AM
46	The meeting facilities were excellent. I did have a problem getting to Singapore given the number of required connections from a non-major US airport and ended up coming a day late.	1/8/2018 9:11 AM
47	I am aware of the politics, but not directly affected.	1/8/2018 9:10 AM

8	It has everything that makes for an excellent IETF meeting.	1/10/2018 1:40 PM
9	Most of the venue worked very nice. Easy access to food, although a bit pricey. The access to the meeting spaces where not as easy as you wished. But when you found your way up to it it was okay getting around between the spaces.	1/9/2018 7:19 AM
10	Overall good, but it lacked an area where people would "bump into" each other. Berlin has excellent such areas, whereas Raffles had none. There was no obvious area to "loiter".	1/9/2018 2:47 AM
11	nice and convenient facilities. Several hotel options (cheaper) nearby.	1/9/2018 1:31 AM

17	One roof, well set up conference facilities, food onsite and easy to access.	1/8/2018 12:59 PM
18	It was very convenient being located right in the shopping/dining mall! This was probably the first IETF held inside a mall.	1/8/2018 12:40 PM
19	Really like the sitting area, tables right by the IETF registration desk area. It is very common for people to agree to meet at IETF registration desk for informal discussion. Having sitting area is really good for people to engage in informal technical discussions, which is the most valuable output from the face to face meeting.	1/8/2018 12:35 PM
20	The rate is on the high end.	1/8/2018 12:25 PM
21	Good quality venue, the huge food court downstairs was a great plus.	1/8/2018 11:35 AM
22	AC was overly aggressive but otherwise good location	1/8/2018 11:29 AM
23	The meeting rooms came in two sizes: Huge and Tiny.	1/8/2018 11:23 AM
24	Venue had adequate space. Enough restaurants were nearby for lunch and dinner. WiFi coverage was fine.	1/8/2018 10:52 AM
25	Would be excellent, but a bit too big for comfort.	1/8/2018 10:39 AM
26	Audio sucked. Levels were poor, equalization curves to prevent feedback made it difficult to understand some speakers. Aside from that the venue was quite nice.	1/8/2018 10:26 AM
27	Ample availability of restaurants within the venue. Easy access to public transportation. Good, functional, meeting rooms.	1/8/2018 10:09 AM
28	Well connected to the city and with ample food options.	1/8/2018 10:04 AM
29	The impromptu beer bofs weren't convenient to the hotel and the registration area. The main work area was pretty isolated from the coffe shop and bar.	1/8/2018 9:55 AM

Q8 At IETF 100 we ran several experiments with IETF badge dots and ribbons. We are planning to continue these at IETF 101. We'd love to hear your thoughts on the following:

Badge dots were labeled (e.g. "IESG" written on the yellow dots, "IAB" on the red dots, etc. )	45.18% 75	1.81% 3	53.01% 88	166
Blank badge ribbons (royal blue) for wg chairs to personalize with their wg acronym	29.70% 49	7.88% 13	62.42% 103	165

1	I liked the personal ribbons-- "I read your email" or "salty".	2/2/2018 5:24 PM
2	Need a better way to label the WG Chair ribbons. They were not compatible with the provided markers; the ink spread and became unreadable.	2/2/2018 7:13 AM
3	It makes no difference to catch the attention . I'm still ignored .	1/29/2018 4:38 PM

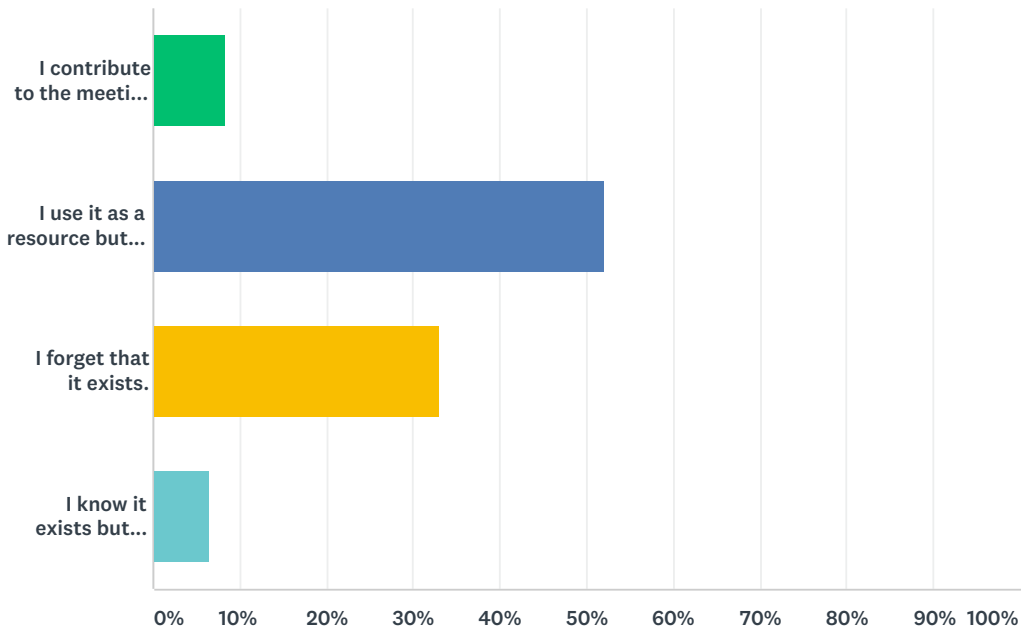

## IETF 100 Meeting Survey

4	You might save money by getting rid of these...	1/28/2018 10:00 AM
5	The ribbons weren't mentioned or handed out at all at the registration desk when I picked up my registration on Sunday. What a shame. I never could find any. It felt like I needed to be an insider to know about this and get one.	1/9/2018 9:47 AM
6	badges smell of rank, pun intended	1/8/2018 8:59 PM
7	Cute idea. I enjoyed learning more about other attendees. Please print the company name larger on the tags so I can sneakily read it while a person is walking by. ?????♂	1/8/2018 5:06 PM
8	As the blue dots are printed in, it would be nice to include WG acronyms in them also. Also for IESG it would be useful to say Sec Ad, instead of IESG, i.e., to tell the area too.	1/8/2018 2:08 PM
9	Not a fan of ribbons generally. Yes, I understand that they make it easier for newcomers, but newcomers are shy and don't seem to make good use of them, or are willing to walk up to anybody and don't need the ribbons.	1/8/2018 12:59 PM
10	I noticed the "flair", but dont have any opinion for or against.	1/8/2018 12:55 PM
11	Print the WG acronym on the blue dot, or perhaps make it a blue square in the corner in the badge for more room.	1/8/2018 12:40 PM
12	It would be much better to explicitly write IAB, IESG, or WG Chair on the "Dot".	1/8/2018 12:35 PM
13	The basket of assorted ribbons for nametags were also great -- a nice way to liven up the process.	1/8/2018 10:44 AM
14	I like the green dots for host company employees (Tradition!).	1/8/2018 10:41 AM
15	I think you should give people hats to wear. Multiple roles, multiple hats. Require us to make sure that we are wearing the right hat when at the microphone.	1/8/2018 10:26 AM
16	I was a host (Cisco attendee) but did not receive a ribbon, and didn't notice them. I wonder how widespread they were distributed.	1/8/2018 9:56 AM
17	While the ribbons are an interesting idea, they lead to people with stacks of ribbons under their badge, which has multiple drawbacks. Particularly when coupled with the custom ribbons, this was a net negative.	1/8/2018 9:44 AM
18	Ribbon colors are confusing. Colored dots are sufficient.	1/8/2018 9:38 AM
19	seems like much ado about nothing	1/8/2018 9:22 AM
20	I wrote my WG acronym beside the dot	1/8/2018 9:14 AM
21	I am not sure it was very efficient.	1/8/2018 9:13 AM
22	There is much to be said for simplicity	1/8/2018 9:11 AM
23	Ribbons are more easily viewable than dots. I didn't get a ribbon :(	1/8/2018 9:10 AM
24	The usage of the blue ribbons wasn't clear - I saw a lot that weren't WG names/acronyms	1/8/2018 9:09 AM

9	I stopped subscribing to the email chain about the local event because there are SO MANY posts on there - many not relevant. I like the Wiki idea for local events though! Is it on the main webpage for that location? Could it be sent out in a moderated "no-reply" fashion along with any key info for the site? I hated to switch to not replying at all but I just couldn't take in all the extraneous email anymore.	1/8/2018 11:41 AM
10	The most useful part is the transportation part. It helps you get from the airport to the hotel or venue. After that, I usually manage on my own.	1/8/2018 11:19 AM
11	This looks like a very tightly knit community of strongly opinionated people and as a newcomer I wouldn't dare to touch anything :-)	1/8/2018 10:04 AM
12	It should be more advertised when you register and within the emails we get from the organizers.	1/8/2018 9:13 AM

1	I'm an active participate who is present all week. Every meeting is productive I wouldn't be there.	1/10/2018 1:40 PM
2	It was really hard to get rooms for ad hoc meetings.	1/8/2018 11:06 PM
3	Indeed my first meeting	1/8/2018 9:18 PM
4	I wish we would stop with the presentation/audience format and making it easy to do that.	1/8/2018 12:59 PM
5	It has been very tough and slow going to make progress on TLS visibility. It is a solid business need (internally) but many in the WG turn a blind eye to it. At least the WG leadership has been open to presentation/awareness of it. Overall, the speed of the IETF is exponentially slower than the speed of business.	1/8/2018 11:41 AM
6	some missing attendees, and for reasons unrelated to IETF I wasn't as prepared as usual	1/8/2018 11:29 AM
7	A lot of key people were missing. This is also common to all Asian venues.	1/8/2018 11:19 AM
8	It was less productive due to some key people not being present and some WG sessions that were cancelled.	1/8/2018 10:33 AM
9	I unfortunately didn't get much useful feedback on my presentations—I think some of the people who are most interested did not attend.	1/8/2018 10:26 AM

## IETF 100 Meeting Survey

10	Again, fewer attendees meant it was much less productive, IMIHO.	1/8/2018 9:24 AM
11	There were many working group meetings canceled this time.	1/8/2018 9:15 AM
12	I may be wrong but it seems it was less attended than other meetings. This said my WG meeting was productive.	1/8/2018 9:13 AM
13	I have to admit there seemed to be less going on at this meeting than normal. But, that was good for me.	1/8/2018 9:09 AM

1	I applied for the scholarship of Internet Society due to the travel cost is too expensive from South America	1/9/2018 12:57 PM
2	Only deeply involved in 1 session (RMCAT), some interest in a single presentation in 1 or 2 more. Sat in on one or two others out of general interest.	1/9/2018 12:29 PM
3	Singapore's anti-gay laws made travel unappealing for me. Too expensive in terms of time (cost was not a factor in my decision).	1/8/2018 1:49 PM
4	Too long a trip in the middle of school year.	1/8/2018 12:31 PM

## Q14 What other information would have been helpful to you in preparing for IETF 100?

Answered: 10 Skipped: 182

#	RESPONSES	DATE
1	N/A	2/2/2018 9:42 AM
2	It would be awesome to access to then contacts of some of the mentors that were available for activities such as the speed mentoring, before the activity, besides the contact of the assigned mentor.	2/1/2018 10:30 PM
3	Please arrange IETF100 in India also	2/1/2018 7:17 PM

6	IETF Out reach	1/9/2018 12:13 PM
7	I found that thorough preparation (reading drafts and mailing lists) is absolutely necessary to make the most out of in person attendance. The conference days are long and then there's the dinner / party mingling. So there's very little time to catch up on studying the material during the conference itself. I'm not sure if that is conveyed enough.	1/8/2018 9:21 PM
8	Newcomers' events without experienced attendees around are pointless. Noobs teaching noobs was a waste of time. Other times there was actual interesting content clashing with the noob event schedule or at some unholy early morning time.	1/8/2018 5:09 PM
9	Warning not to book a Hotel below 4 stars even as budget traveller (hotels on list were all too pricy as Ph.D. student travelling on university funding)	1/8/2018 9:48 AM
10	Reading the proposals and specs before attending in person.	1/8/2018 9:23 AM

## Q17 We are continuously working to improve the IETF meeting experience. Please use the box below to make any general suggestions for improvements to the IETF meeting experience.

Answered: 40 Skipped: 152

#	RESPONSES	DATE
1	I think you have done a great job so far, but always innovative things are valuable.	2/2/2018 11:52 AM
2	to know the agenda meeting in advance, airplane flights are cheaper when we buy them more than 6 months in advance.	2/2/2018 2:56 AM
3	As it was my first IETF meeting, I was genuinely surprised by the organization and the relevance of it, personally, it was a pleasure and an enriching experience to share with people who had a lot of experience and knowledge and who are still kind and accessible to talk to the newcomers and others.	2/1/2018 10:39 PM
4	safe city with an international airport	2/1/2018 7:19 PM
5	Excellently Organized	2/1/2018 7:18 PM
6	I think that the microphones should have a badge reader so that people at the microphone can be readily identified.	2/1/2018 6:23 PM
7	It's obvious there's a rigid hierarchy in this organisation . Comments are easily ignored . Old faces only talk to each other .	1/29/2018 4:41 PM
8	IT would be great to identify "local" people that are willing to help as "local guides".	1/15/2018 5:04 AM
9	NA	1/11/2018 10:53 PM
10	I think you do a great job. You've adopted some of my suggestions historically. I don't have anything on my mind that I would suggest you add or do differently.	1/10/2018 1:44 PM
11	I would like to suggest to rise fellowship from developing country specially from Asia.	1/9/2018 12:18 PM
12	Not such a fan of the Asia location meetings. Also would like not to be in Prague 6 times in the next 10 years.	1/9/2018 9:48 AM
13	To be fair, should hold meeting at other great cities in Europe and Asia! Again: Europe and Asia such as Vietnam, Hong Kong, Taiwan, Thailand and Malaysia.	1/9/2018 4:01 AM
14	Please choose the meeting venue that is convenient for meal and visit.	1/9/2018 1:39 AM
15	Room temperature was not bad. Thank you for your efforts.	1/9/2018 1:05 AM
16	Keep up the good work. Thanks!	1/9/2018 12:24 AM
17	Make more small rooms available for ad hoc meetings.	1/8/2018 11:06 PM
18	IETF meetings should end on Thursday evening. Everybody is gambling on the fact that "their group" is not meeting on Friday, and if that happens, many participants have already left. In singapore, i think at least one WG on Friday was cancelled, and given the other cancellations, the remaining slots would probably have fit into the rest of the meeting. Friday always feels like "the last bite the dogs". Let's skip it - nobody wants it.	1/8/2018 10:00 PM
19	I think I gave a lot of feedback already during the newcomer's session on Thursday. I think that approachability is a key concern.	1/8/2018 9:22 PM
20	awesome organisation by secretariat	1/8/2018 9:00 PM
21	The wiki, mobile app, and mailing lists are archaic compared with other tools like meetup.com and facebook event pages or even most other tech confs. Desperately needs some design love.	1/8/2018 5:12 PM

## IETF 100 Meeting Survey

22	Alternate arrangement of tables/chairs. It would be great if we always had the universal power strips. A designated jabber ID to contact the secretariat (or a jabber room that the secretariat always hangs out in) to report "emergency" meeting issues (like a mic is dead, or the projector blew up, etc.)	1/8/2018 1:50 PM
23	The IETFers iPhone app is great, but isn't updated in real time if the agenda changes. Maybe work with Tom Pusiteri on that.	1/8/2018 12:45 PM
24	Having more sitting chairs/tables near IETF registration area	1/8/2018 12:36 PM
25	I think Singapore was an excellent location. It has outstanding flight connectivity from everywhere. Customs/Immigration were a breeze. I heard no complaints about visas, customs, or immigration - the 1st IETF venue where there were no complaints like that. Food is both affordable and good quality, an unusual combination in Asia/Pac. Hotel prices were reasonable - unlike most Asia/Pac locations.	1/8/2018 10:54 AM
26	Please keep expenses for attendance low... This is a sum, including IETF registration fee, IETF meeting hotel room rates, cost of meals in the vicinity of the meeting site, plus airfare to get to the IETF meeting. The cost of any individual component is not that important, but the sum matters a lot. (And the additional VAT for venues in Europe is a noticeable contributor to the sum total.) Improving remote attendance options is worthwhile, but remote attendance is no substitute for being able to attend and participate in the face-to-face hallway conversations.	1/8/2018 10:48 AM
27	Please hold an IETF meeting in India.	1/8/2018 10:47 AM
28	Test the audio quality of each meeting room before choosing the venue. :)	1/8/2018 10:27 AM
29	Keep varying/expanding locations: at every meeting I meet participants who could not have contributed were the meeting held elsewhere.	1/8/2018 10:12 AM
30	At some breaks it was impossible to get near food/beverages - there were rambling beasts scooping it up all as soon as it appeared :-D	1/8/2018 10:07 AM
31	TNC often provides local transportation passes (tram/subway/etc) and gets the host city to sponsor the cost - might be possible for more of our venues (Prague already does this I think).	1/8/2018 9:54 AM
32	- IETF App for smartphones is very limited and can be improved.	1/8/2018 9:47 AM
33	Great location, in spite of the long flight from the US. Would love to return.	1/8/2018 9:31 AM
34	The venues need more informal meeting spaces with tables/chairs.	1/8/2018 9:26 AM
35	n/a	1/8/2018 9:24 AM
36	Now that drafts are associated with IETF meetings, it would be useful if it were easy to access all meetings slides presented for a given draft.	1/8/2018 9:18 AM
37	Consider meeting twice a year to increase in person participation.	1/8/2018 9:16 AM
38	If IETF wants to continue meeting in diverse countries all over the world it should try to organize group discounts on air travel and airport transfers the same they do with hotels.	1/8/2018 9:15 AM
39	I really need more of the "snark" badges. My favorite was could I have PBR :)	1/8/2018 9:11 AM
40	Public transport to airport; and availability of lower-priced hotels are important to those who do not have company sponsorship to attend	1/8/2018 9:10 AM

## Q18 In our IETF 101 meeting survey, what additional questions should we ask?

Answered: 22 Skipped: 170

#	RESPONSES	DATE
1	ask how easy it was for people to get food. I think a decent selection of food options within walking distance of a venue is crucial. I would like that to be a consideration when looking for venues and would welcome a question on it in the next survey.	2/2/2018 5:25 PM
2	Questions about the network functionality for example.	2/2/2018 11:52 AM
3	It should be about transportation.	2/2/2018 9:45 AM
4	How did the IETF 100 directly impact in your actual work?	2/1/2018 10:39 PM
5	food near the meeting venue	2/1/2018 7:19 PM
6	Nothing from my side	2/1/2018 7:18 PM
7	You should have asked whether there was any legal harrassment, because of the voluminous discussion prior to the event!!	2/1/2018 6:23 PM
8	How about asking REAL people on why they felt disappointed ?	1/29/2018 4:41 PM
9	not yet	1/11/2018 10:53 PM
10	I do wonder about IETF revenue. It might be interesting to ask questions around meeting costs, for three reasons: one to get a sense of what people experienced in the moment, to be able to see trends, and as input to future planning or option considerations (e.g., should or could the IETF charge for remote participation).	1/10/2018 1:44 PM
11	not to change schedule frequently during IETF meeting	1/9/2018 12:18 PM
12	#13 is very important to all of the people that I know at the IETF. you can increase the fee at more expensive locations: but locations should be great. Prague and big cities in Germany are great. UK is great too.	1/9/2018 4:01 AM
13	- sound system quality - meeting room temperature	1/9/2018 3:15 AM
14	will you come to 102? what would make you more inclined to do so?	1/8/2018 9:00 PM
15	Which other events do you attend that IETF organisers should learn from.	1/8/2018 5:12 PM
16	I think you should make the difference between the location and the venue a bit clearer in the questions, or ask specifics that make it clear (e.g. "Availability of food", "Hotel selection", "Conference room locations", etc.) Please also send out the survey immediately after the meeting. It was difficult to remember some stuff.	1/8/2018 1:50 PM
17	Please ask if we tried to get into the conference hotel. Did we fail? If we did not try to book, why not?	1/8/2018 12:32 PM
18	How much did you pay for your hotel room per night? How long did your travel to IETF take?	1/8/2018 11:31 AM
19	- How many days before the WG session should the draft presentations be made available? - Was the general space made available for adhoc discussions (e.g. lounge area where people can sit and talk) sufficient?	1/8/2018 9:47 AM
20	n/a	1/8/2018 9:24 AM
21	More questions about remote attendance and what could improve it.	1/8/2018 9:15 AM
22	feedback about newcomers event, mentoring, etc?	1/8/2018 9:10 AM
