ITU REQUEST FOR IPv6 ADDRESSES

Bob Hinden

IPSILON

REQUEST

- ITU-Telecommunication Standardization Sector STUDY GROUP 7, 17 July 1995, Rapporteur Q3/7
- Requested IPv6 Format Prefixes for X.121 Public Data Network Addresses
- Suggested that ITU-T Study Group 2 may also make a similar request for E.164 Addresses

IPSILON

PROPOSED RESPONSE

- X.121 Public Networks are not Internetworks
- Treat in similar manner as IPv6 over Foo
  - Create Interface Identifier from X.121 Address
  - Convert BCD Digits to Binary

PREFIX	INTERFACE ID

- Write IPv6 over X.121 Public Data Networks document
